

WORK EXPERIENCE

IT Analyst,

Tata Consultancy Services

03/2014 – Present

Bangalore, India

Technical Skills

Database – Teradata and Teradata Utilities

Languages – SQL, Shell scripting

ETL Tools – DMX-hadoop

Software/Tools – Autosys, Hive, Sqoop, HP ALM, Teradata SQL

Assistant, SSH Tectia

SKILLS & COMPETENCIES

Goal oriented

Problem solving

Persistence

Quick learner

Leadership

Time Management

Adaptive

Responsibility & Ownership

Logical Designing

Long-term thinking

PROJECTS

FACT ADVISORY DESKTOP, MODULE LEAD

The project mainly deals with handling the application owned by Financial Advisors of a Banking firm who suggests and renders financial services to clients.

HaaS MIGRATION, MODULE LEAD

As part of Hadoop migration, all the applications under HAP is been moved to HAAS environment. The project involves in testing new changes and regression testing on existing system.

RTAS (RULE TRENDING ALERT SYSTEM), QA TESTER

Whenever data flows through SR from different Line of business, multiple controls and check points are implemented by our team to validate key data values of W tables, before storing them in the Central repository called as RTAS.

DATA WAREHOUSE – ETL HADOOP CONVERSION, QA TESTER

Data Warehouse Hadoop conversion project deals with conversion of the legacy system in existence (Mainframes – Teradata) to the Hadoop – Teradata structure.

AWARDS

Delivery Excellence award

2014-2015, 2016-2017

Given to associates with extraordinary performance delivery.

ROLES AND RESPONSIBILITIES
